

IDsec is an independent company specialising in network security, and has provided security auditing services and network protection systems since 1997.

IDsec on One Sheet

Everything you need to know about IDsec, its services and products on one sheet of paper (PDF).

Track Record

We have supplied services and products to many major UK companies and public bodies, in a number of sectors.

To illustrate this we have provided outlines of some key projects that IDsec has carried out over the past few years.

Staff Profiles

Our staff have considerable hands-on experience in penetration testing, intrusion detection and protection, product integration and security consultancy.

These profiles give brief sketches of some of our senior consultants.

Newsletters

IDsec Update is an occasional newsletter that we send out to customers and other selected contacts.

We maintain a full archive of current and past issues.

In The Press

Staff press credits range from simple practical advice to more general commentaries on events and trends in the network security industry.

This is a record of recent published articles.

Briefing Papers

From time to time members of IDsec's staff write technical papers that may be of interest to those considering a penetration test or an intrusion detection system deployment.

Jobs
