

*IDsec has been providing network security products to blue-chip customers in all sectors since 1997.*

### Monitoring

RSA enVision

Security event collection, analysis and reporting via high-power appliances.

Proventia

Intrusion detection and prevention from IBM Internet Security Systems.

Proventia Desktop

Self-defence for PCs, matching today's fuzzy security perimeters.

Dragon

Enterprise-class host and network based IDS and IPS sensors from Enterasys.

Network Critical

TAPs (test access points) for network monitoring and security applications.

### Access Control

Fortinet

Multi-function firewalls, from home office to the largest ISPs.

RSA SecurID

Two-factor authentication with a 20-year history of performance and innovation.

AppGate

A comprehensive access control solution for internal and external users.

### Audit and Test

Superwalk

A low cost, automated Internet gateway monitoring service – only from IDsec.

Tripwire

Configuration audit and control for servers, desktops and network devices.

#### **Feel Good About Your Network**

*IDsec is an independent company specialising in network security. We can assess your security and advise on long-term protection: as we have for a range of blue-chip clients since 1997.*
